March 2, 2012

To All Detroit Public School Police Officers:

POAM is aware of a settlement agreement between the Detroit Public Schools and the Detroit Federation of Teachers (DFT) over a federal lawsuit the Union filed after Emergency Manager (EM) Roy Roberts imposed a pay cut and health care cost increases on the group.

POAM members need to realize that the basis for the DFT lawsuit was that the EM broke a current contract to unilaterally impose changes. As you well know our collective bargaining agreement had long been expired when we met with Mr. Roberts this past summer.

However, POAM will analyze the impact of this case and the latest petition drive to limit an EM's powers. Any and all opportunities to improve our bargaining position will be taken.
