**THE PEOPLE OF THE STATE OF MICHIGAN ENACT:**

1           Sec. 13. (1) This act supersedes any investment authority  
2 previously granted to a system under any other law of this state.

3           (2) The assets of a system may be invested, reinvested, held  
4 in nominee form, and managed by an investment fiduciary subject to  
5 the terms, conditions, and limitations provided in this act. An  
6 investment fiduciary of a defined contribution plan may arrange for  
7 1 or more investment options to be directed by the participants of  
8 the defined contribution plan. The limitations on the percentage of

1 total assets for investments provided in this act do not apply to a  
2 defined contribution plan in which a participant directs the  
3 investment of the assets in his or her individual account, and that  
4 participant is not considered an investment fiduciary under this  
5 act.

6 (3) An investment fiduciary shall discharge his or her duties  
7 solely in the interest of the participants and the beneficiaries,  
8 and shall do all of the following:

9 (a) Act with the same care, skill, prudence, and diligence  
10 under the circumstances then prevailing that a prudent person  
11 acting in a similar capacity and familiar with those matters would  
12 use in the conduct of a similar enterprise with similar aims.

13 (b) Act with due regard for the management, reputation, and  
14 stability of the issuer and the character of the particular  
15 investments being considered.

16 (c) Make investments for the exclusive purposes of providing  
17 benefits to participants and participants' beneficiaries, and of  
18 defraying reasonable expenses of investing the assets of the  
19 system.

20 (d) Give appropriate consideration to those facts and  
21 circumstances that the investment fiduciary knows or should know  
22 are relevant to the particular investment or investment course of  
23 action involved, including the role the investment or investment  
24 course of action plays in that portion of the system's investments  
25 for which the investment fiduciary has responsibility; and act  
26 accordingly. For purposes of this subsection, "appropriate  
27 consideration" includes, but is not limited to, a determination by

1 the investment fiduciary that a particular investment or investment  
2 course of action is reasonably designed, as part of the investments  
3 of the system, to further the purposes of the system, taking into  
4 consideration the risk of loss and the opportunity for gain or  
5 other return associated with the investment or investment course of  
6 action; and consideration of the following factors as they relate  
7 to the investment or investment course of action:

8 (i) The diversification of the investments of the system.

10 the system relative to the anticipated cash flow requirements of  
11 the system.

12 (iii) The projected return of the investments of the system  
13 relative to the funding objectives of the system.

14 (e) Give appropriate consideration to investments that would  
15 enhance the general welfare of this state and its citizens if those  
16 investments offer the safety and rate of return comparable to other  
17 investments permitted under this act and available to the  
18 investment fiduciary at the time the investment decision is made.

19 (f) Prepare and maintain written objectives, policies, and  
20 strategies with clearly defined accountability and responsibility  
21 for implementing and executing the system's investments.

22 (g) Monitor the investment of the system's assets with regard  
23 to the limitations on those investments under this act. Upon  
24 discovery that an investment causes the system to exceed a  
25 limitation prescribed in this act, the investment fiduciary shall  
26 reallocate assets in a prudent manner to comply with the prescribed  
27 limitation.

1 (h) Prepare and maintain written policies regarding ethics and  
2 professional training and education, including travel, which  
3 policies contain clearly defined accountability and reporting
