ENROLLED SENATE BILL No. 688

AN ACT to amend 1965 PA 314, entitled “An act to authorize the investment of assets of public employee retirement systems or plans and the contributions made by employees to retirement systems or plans created and established by the state or any political subdivision; to provide for the payment of certain costs and investment expenses; to authorize investment in variable rate interest loans; to limit employer and plan official liability for certain investment decisions; to define and limit the investments which may be made by an investment fiduciary with the assets of a public employee retirement system; and to prescribe the powers and duties of investment fiduciaries and certain state departments and officers,” by amending sections 13 and 20h (MCL 38.1133 and 38.1140h), as amended by 2016 PA 530.

The People of the State of Michigan enact:

Sec. 13. (1) This act supersedes any investment authority previously granted to a system under any other law of this state.

(2) The assets of a system may be invested, reinvested, held in nominee form, and managed by an investment fiduciary subject to the terms, conditions, and limitations provided in this act. An investment fiduciary of a defined contribution plan may arrange for 1 or more investment options to be directed by the participants of the defined contribution plan. The limitations on the percentage of total assets for investments provided in this act do not apply to a defined contribution plan in which a participant directs the investment of the assets in his or her individual account, and that participant is not considered an investment fiduciary under this act.

(3) An investment fiduciary shall discharge his or her duties solely in the interest of the participants and the beneficiaries, and shall do all of the following:

(a) Act with the same care, skill, prudence, and diligence under the circumstances then prevailing that a prudent person acting in a similar capacity and familiar with those matters would use in the conduct of a similar enterprise with similar aims.

(b) Act with due regard for the management, reputation, and stability of the issuer and the character of the particular investments being considered.

(c) Make investments for the exclusive purposes of providing benefits to participants and participants’ beneficiaries, and of defraying reasonable expenses of investing the assets of the system.

(d) Give appropriate consideration to those facts and circumstances that the investment fiduciary knows or should know are relevant to the particular investment or investment course of action involved, including the role the investment or investment course of action plays in that portion of the system’s investments for which the investment fiduciary has responsibility; and act accordingly. For purposes of this subsection, “appropriate consideration” includes, but is not limited to, a determination by the investment fiduciary that a particular investment or investment course of action is reasonably designed, as part of the investments of the system, to further the purposes of the system, taking into consideration the risk of loss and the opportunity for gain or other return associated with the investment or investment

course of action; and consideration of the following factors as they relate to the investment or investment course of action:

- (i) The diversification of the investments of the system.
- (ii) The liquidity and current return of the investments of the system relative to the anticipated cash flow requirements of the system.
- (iii) The projected return of the investments of the system relative to the funding objectives of the system.

- (f) Prepare and maintain written objectives, policies, and strategies with clearly defined accountability and responsibility for implementing and executing the system's investments.
- (g) Monitor the investment of the system's assets with regard to the limitations on those investments under this act. Upon discovery that an investment causes the system to exceed a limitation prescribed in this act, the investment fiduciary shall reallocate assets in a prudent manner to comply with the prescribed limitation.
- (h) Prepare and maintain written policies regarding ethics and professional training and education, including travel, which policies contain clearly defined accountability and reporting requirements for the system's investment fiduciaries.

For a system for which the state treasurer is the investment fiduciary, the summary annual report must include the system's investment performance net of fees on a rolling calendar-year and fiscal-year basis for the previous 1-, 3-, 5-, 7-, and 10-year periods.
 - (vii) The system's administrative and investment expenditures pursuant to standards of the Governmental Accounting Standards Board, including, but not limited to, a list of all expenditures made with soft dollars and all expenditures for professional training and education, including travel expenditures, by or on behalf of system board members that are paid by the system, if any.
